RESEARCH EXPERIENCE

School of Computing and Data Science, The University of Hong Kong

2026

Research Assistant — Taku Komura's group (Miro Dynamics – HKU CGVU Joint Lab)

Project: *Data-Driven Cross-Embodiment Action Retargeting for Dexterous Robot Manipulation*, under the School of Computing and Data Science Summer Research Internship Programme 2026 (completed).

- Studied cross-embodiment action retargeting, preserving task intent, object motion, and contact structure while adapting execution to different robot embodiments.
- Led retargeting research translating standardized interaction representations into executable behaviors for dexterous manipulation.

Shanghai Jiao Tong University

Jun 2025 – Apr 2026
